

Buckin' Covid Policy

After a group discussion, the Buckin' Covid Policy was decided accordingly (applicable to home and away teams):

- Participating curlers must arrive 30-45 minutes prior to their first draw and present one of the following:
 - A negative PCR test taken within the past 3 days, or
 - A positive PCR test with proof of COVID positivity in the past month, or
 - Take an antigen rapid test at the club with that produces a negative result
 - Participants should bring their own rapid tests. We recommend bringing several in the event they need to test more than once.
- We will set up a pop-up table and tent outside for curlers to present their cards and tests. Wristbands will be issued to curlers and spectators to denote who is approved to be in the building.
 - Precautions will be in place to dispose of used tests to ensure the safety of our volunteers as well as our participants.
- If a curler tests positive during the spiel, that curler can no longer play in the competition. (S)He/they can return home or quarantine at the hotel. The remainder of the team must play in masks but may participate in the remainder of the event, provided they test negative.
 - Teams may continue with three members, or they can use a pre-approved sub provided by the club.
 - Subs will also have to test negative to participate
- Spectators and volunteers with shifts at the club must be vaccinated.
 - Spectators will have to provide proof of vaccination
 - If volunteers have not yet provided proof of vaccination, they will need to do so prior to their first shift
 - We strongly recommend spectators and volunteers test prior to coming to the club
- Anyone who is experiencing symptoms – COVID or otherwise – is encouraged to test, mask, and consider their participation.
- We will offer indoor and outdoor broomstacking for teams to enjoy as they see fit.
- The cutoff for refunds is **AUGUST 5TH**
